

Change Of Officers.

At meetings of the directors of the Missouri Pacific and the Saint Louis, Iron Mountain & Southern Railway Companies held July 8, Mr. J. G. Drew, General Auditor of the system, was elected Vice-President in charge of Accounts. Mr. J. G. Livengood, Auditor of Disbursements was chosen as Mr. Drew's successor in the position of General Auditor.

John Graham Drew was born at Hammondsport, N. Y., February 12th, 1863. On January 18th, 1881, he entered the railway service as station clerk at Seneca, Kansas, on the Saint Joseph & Western Railroad, now the Saint Joseph & Grand Island Railroad. He remained with that railroad until June 1st, 1899, filling consecutively the positions of telegraph operator, agent, Superintendent's chief clerk, General Manager's chief clerk, General Book-keeper, Chief Clerk to Auditor, and Auditor. He was appointed to the latter position on January 1st 1892, and on June 1st, 1899, left the Company to accept the position of Assistant Comptroller of the Great Northern Railway with headquarters in Saint Paul, Minn. On January 1st, 1902 he was made Comptroller of the Great Northern, remaining in that position until June 1st, 1911, when Mr. B. E. Bush, who had just taken hold of the Missouri Pacific-Iron Mountain System a month previous as its President, engaged him as General Auditor for that Company. He has held that position until his promotion to the Vice-Presidency.

Mr. J. G. Livengood, the new General Auditor of the Missouri Pacific-Iron Mountain, was born at Rockville, Ind., October 28, 1873. He began his railroad career as freight handler on the Milwaukee & Northern at Marinette, Wis., in April, 1899. He served as yard clerk on the Milwaukee & Saint Paul at Minneapolis, and was also freight and ticket clerk and for a short time in the train service on the Soo Line.

Next he was employed by the Great Northern at Minneapolis as waybill clerk and later at Superior, Wis., successively as bill clerk, chief clerk and cashier. In 1906 he was made Auditor of the Erie & Wyoming Valley Railroad at Dunmore, Pa. In March 1901, when that road was taken over by the Erie, Mr. Livengood was made chief clerk in the Disbursement Department of the latter railroad. Later he was appointed Auditor of Disbursements, and was made Auditor of the Erie in 1911. On June 17, 1911, he resigned to take the position of Auditor of Disbursements on the Missouri Pacific Iron Mountain. He has held that office until his promotion to General Auditor.

Report On Apple Crop.

From data received by sending cards of inquiry to representative fruit growers of Missouri, the State Board of Horticulture has gathered the following results:—

The average apple crop for all sections of the state is about 66 per cent. This is, according to every report but give, much better than last year's crop, many reporting 100 per cent better, while still others say it is the best we have had in years. The usual "June drop" was not as severe as might be expected, most growers reporting it not at all serious.

There is quite a difference in the rank of different varieties. Ben Davis has in nearly every case a full crop, while the summer varieties are generally reported shy. Other winter varieties, such as Winesap, Grimes Golden, Ingram, and Gano have very promising crops. A large majority of growers report insects and diseases, codling moth, scab, and blight being quite widespread. It is stated in nearly every such case, however, that these are found only unsprayed orchards. Spraying this season has produced excellent results.

In this report Northwest Missouri leads with 72 per cent of a full crop. Only one man reported a crop no better than last year. Southwest Missouri follows with 71 per cent; Central Missouri, 66 per cent; Southeast Missouri, 62 per cent, correspondents enthusiastically reporting it from two to four times as large as last year. Northeast Missouri has the poorest crop of any section of the state, 60 per cent.

At this time last year the crop was estimated at 37.5 per cent.

The Cost.

Seymour—I don't believe that Wallman has a single enemy among all his neighbors; every one of them speaks of him as if he were the best man in the world.

Ashley—Well, I guess that's right; but Wallman has to pay pretty high for their good opinion; every year he has to invest in a new lawnmower.

What Makes a Woman.

One hundred and twenty pounds, more or less of bones and muscle don't make a woman. It's a good foundation. Put into health and strength and she may rule a kingdom. But that's what Electric Bitters give her. Thousands bless them for overcoming fainting and dizzy spells and for dispelling weakness, nervousness, backache and tired, listless, worn out feeling. "Electric Bitters have done me a world of good," writes Eliza Pool, Depew, Okla., "and I thank you, with all my heart, for making such a good medicine." Only 50c Guaranteed by Kardell Drug Co.

An enthusiastic woman suffragist exclaims in print: "Give the women a chance to run this country!" She should study the situation more closely. They do.

It is said that women do not manage automobiles well, because they lack the power of concentration. Does an automobile require more of that than a husband.

In these days of high cost of living, a medicine that gets a man up out of bed and able to work in a few days is valuable and welcome remedy.
